

Automatic Reimbursement for your Health Care Flexible Spending Account (FSA)

To All Health Care FSA Participants/New Enrollees:

You can choose the Streamline option for your health care FSA. Enrollment in Streamline means less paperwork for you and convenient access to your FSA dollars.

Streamline automatically passes approved medical, dental or pharmacy claims processed by Aetna to your FSA. This means for most of your claims you will not have to file a paper claim form. You're reimbursed from your FSA by paper check or direct deposit, for your out-of-pocket responsibility.

You should *not* participate in Streamline if you have:

- Coordination of benefits through a non-Aetna plan
- Elected the health care FSA for reimbursement of orthodontia expenses
- A domestic partner whose expenses are not FSA eligible
- Some other situation where you do not want your reimbursements automatically processed for you

If any of the above applies, then you must **cancel** Streamline.

Here's how you cancel or enroll in Streamline:

- Contact FSA Customer Service
- Log on to your secure member website, Aetna Navigator®, at www.aetn navigator.com
 - Choose ***Requests & Changes***
 - Select ***Payment Options***
 - ***Streamline***

Aetna Navigator can also help you with your FSA. You can:

- View your FSA claims
- Review your current FSA account balances and activity
- Use the FSA Savings Calculator to project your potential pre-tax savings
- Access the list of generally eligible FSA expenses
